

Press Release – 22 September 2021

*For Immediate Release*

## **OMS Oilfield Services and URBAN RENEWABLES — both Singapore born and bred companies — enter into a long-term Solar PPA for its local operations in Singapore.**

---

**SINGAPORE, 22 September 2021** — **OMS Oilfield Services Pte Ltd**, one of Asia’s leading oilfield services and manufacturing company, has signed a long-term Power Purchase Agreement (PPA) for clean energy solutions developed by Singapore’s multi-solution sustainable energy investor, **URBAN RENEWABLES Pte Ltd**.

A rooftop solar PV system of no less than 2.3 MWp capacity will first commence its construction at the home premise of **OMS Oilfield Services Pte Ltd**, ahead of other energy solutions planned by **URBAN RENEWABLES** such as EV charging infrastructure and energy efficiency works. The building’s operation will receive its green power at an aggregated guaranteed output of no less than 2,400,000kWh annually which will provide 100% of the energy consumption at the company’s premises in Singapore.

How Meng Hock, CEO, **OMS Oilfield Services Pte Ltd**, “While we hold our Health, Safety, Security & Environment (HSSE) policy in high regards and with the recent successful certification to ISO45001 and ISO14001, there is no better place to begin fulfilling this critical aspect than home where the foundation of our promised commitments are internalized then broadens throughout our long-term sustainable journey.”

Yet another score on building sustainable communities in Singapore; **URBAN RENEWABLES** has been on a roll in deploying similar projects since early 2021.

“We are pleased to supply and manage green power assets such as solar rooftop systems to divert reliance on fossil fuel power to resilience and self-reliance with renewable and sustainable energy solutions. Creating a Singapore story with local partners like OMS Oilfield Services Pte Ltd is a next level goal we hope to achieve and for everyone to participate in. Likewise, for the other regions in the coming year(s).” said Patricia Eng, Director at **URBAN RENEWABLES**.

---

### **About URBAN RENEWABLES**

**URBAN RENEWABLES** was established in June 2020, with the aim to develop and invest in sustainable energy solutions for the betterment of urbanization, as well as, to provide opportunities for communities to participate and invest in the energy transition of their own cities.

### **About OMS Oilfield Services**

OMS Oilfield Services is one of the leading oilfield services and manufacturing company which design and manufacture casing connectors, surface wellheads (both conventional and compact type), mudline suspension system and surface Christmas trees for both onshore and offshore applications. The company also provide services including equipment repairs and re-manufacturing, onsite/offsite inspection, cladding, welding, precision machining, and technology connection (premium threading). OMS strive to be customer's Supplier of Choice and being the best in what they do.
